

Anne Sabri

Artist Statement

For me, each painting is an exciting exploration.

Of all mediums and quite beyond inspiration of subject, shapes, light and shade, watercolour has its own magic.

There is a point when the wonderful watery flow almost takes over and new hues and granulations happen that I could not have planned. Finding the balance between control and surrender to the unexpected is where the fascination lies.

Biography

I came to USA from England with my husband in 1980. After a busy career as a registered nurse in UK and the Middle east, I was able to pursue my interest in painting and drawing, auditing classes in design, life drawing, colour theory, and later Art History. Also I attended many workshops with nationally known artists including Wolf Khan, Frank Web and Judy Betts and many others.
